Vision, Commitment, Integrity

While many things have changed over the nearly 40 years since Weststar was established, one important hallmark remains constant – our commitment to the highest standard of excellence in commercial real estate. For almost four decades, Weststar has been recognized as a key leader in providing commercial real estate services including, brokered leasing, management, owner and tenant representation, acquisition and sales, and development of retail, office, and industrial properties.

In part, Weststar's excellence stems from our dedication in helping our clients seeking commercial real estate to provide them with a personalized touch in servicing their specific needs cost-effectively and in a timely fashion. Defining the needs of our clients while adapting to rapidly changing markets, adding value to our properties, and to help clients make well-informed strategic business decisions for their commercial real estate needs puts us ahead of the game.

Within the commercial real estate industry, Weststar has earned a reputation for creating strong relationships with its business partners, communities, and tenants. As commercial real estate becomes more complex, both tenants and owners are increasingly turning to Weststar to handle their real estate needs.

Unmatched by its personalized approach and knowledge of the marketplace, Weststar has achieved great success maintaining high occupancy levels, maximizing value for its owners, and securing ideal space for tenants. Simply put, we do it better.

Brokerage

Vacancy is perhaps the most significant risk of any real estate asset. Attracting and retaining quality tenants is the key to protecting an owner's revenue stream, and enhancing investment value. Weststar's brokerage professionals bring a wealth of experience, proven ability to perform, in-depth market knowledge, and creativity when representing landlords in the marketing, positioning, and negotiation of the most favorable lease terms for commercial real estate. As a result of representing tenants for nearly 40 years, we are able to better understand tenants' needs, and therefore, position and lease properties for landlords and developers more effectively.

Weststar has extensive leasing experience with assets of all types and sizes, including retail developments, industrial projects, and office buildings. Whether you own a free-standing building, multi-tenant property, a portfolio of properties, or are developing assets,

our understanding of the dynamics of local real estate markets enables Weststar to create maximum value for your asset, or portfolio of assets. Our leasing approach is based on attracting diverse quality tenants, not just filling buildings. Our in-depth knowledge of local trends and competition, combined with a close working relationship with our clients, allows us to better understand and to achieve both the short and long-term goals of our clients.

Property Management

Weststar Commercial offers a broad range of property management services, including financial management and reporting, lease administration, preventive and recurring maintenance, capital improvements, and tenant relations.
