

## Landscape Committee Annual Report 2011

The Landscape Committee has had a productive year with beautiful results. In the spring:

- 1.) Redesign of the entrance garden to include tulips, hostas and ferns.
- 2.) Painting of pots @ entrance, island, pots around the pool and planters outside of the pool.
- 3.) Island redesign and decisions were made about the flowers to be planted in the summer for the entrance, flower pots, island, and planters @ the pool.
- 4.) Rocks put in front of the day lilies to help retain water

In early summer the island was re-landscaped by moving rocks, adding new soil and removing dead plants. This work could not have been done were it not for the community "helping hands." Many volunteers from the community helped the members of the Landscape Committee. We would like to thanks all those who helped and remind the community we need your help.

The committee is sensitive to the request of the volunteers to have projects that are timely to complete. When the community helps it isn't necessary to ask JBK to do or complete work thus saving us all money.

Boarders were refreshed and bark added to those boarders that required attention.

We want to thank all the homeowners who sign up for the summer watering: #'s 50,48,18,16,38,41,39,23,14,24,19,20,15,6,41,37,13,44,3,and 42. Our community could not have such a beautiful display if it were not for all 20 of you. We would encourage the remaining 40 homeowners to sign up this year. There are clear directions sent to each volunteer and plenty of support should your schedule become complicated.

Particular attention was paid to over watering and areas in the community that needed additional watering these areas were brought to the attention of JBK. We would like to thank Phil Faulkner for supplying the water usage data to the committee.

In the fall and winter we asked JBK to not remove leaves on the entrance and island for added mulch. The biggest time commitment for the committee is Christmas and the summer planting. This year two of the four plugs @ the island had power thus some of the decorations could not be lit.

### Recommendations to the Board:

The committee submits the name of Adele Linneman as Chairperson. We are recommending the chairperson's role be co-chaired. The outgoing chair pledges to support the new chair people.

The Board is encouraged to consult and involve the Landscape Committee when planning changes within the community landscape.

We would recommend JBK post on the mail kiosk a list of plants that have a high use of water as well as plants that use little water. Posting the list would help homeowners who are planning summer plantings.

It's been a pleasure to be the chairperson thanks for the opportunity.

Respectfully submitted
